

why not have your cake...and eat it?

Fused Networks Converged Solutions

Secure, automatic online backup from Fused Vault

An ideal service for Channel Partners as it encourages 'sticky' customers – both consumer and business. With single and multi-user options, this taps into the rich market of a reported 85% of computer users who perform no regular back up of their files.

Microsoft SharePoint made '1 click' easy

- Vital element of a disaster recovery strategy - protect business critical files from fire, theft, damage, loss and accidents
- Full enterprise collaboration and version control – SMEs now have access to enterprise-class solutions without the expense and hassle
- Fully scalable solution from a single user upwards
- Intuitive user interface for quick installation, quick adoption and quick user buy-in – no user intervention required on an ongoing basis
- Software creates a folder on your computer (PC or Mac) and all files saved to or put in that folder are automatically backed up
- Low cost monthly service with low churn and great margins for Channel Partners
- Great service for both residential and business customers – safely store documents, photos, music files and videos
